

### **Drydocks delivers OSA Goliath**

SINGAPORE: Drydocks World has delivered offshore multipurpose construction vessel OSA Goliath. The vessel was built for Singapore-based Coastline Maritime at the Drydocks World Pertama shipyard on the island of Batam, Indonesia.

OSA Goliath measures 180 by 32 by 12 meters (590 by 105 by 39 ft) and is 22,000 dwt, one of the largest vessels in its class. The vessel is equipped with DP-3 and a crane to install offshore platforms and pipelines in deep waters. In addition to OSA Goliath, Coastline has a similar vessel, Samson, currently under construction at the same shipyard, scheduled for delivery in the first quarter of 2010.
